

## COMMERCIAL ELLIPTICAL TANKER

### GSO 8596 | FRANKLIN TOWNSHIP, PA

The Franklin Township fire company was in the market for an affordable water supply apparatus. Their KME commercial tanker is built on an International 7500 chassis with a very maneuverable 193" wheelbase. The LX style tanker body features compartments forward and behind the rear wheels, with storage for suction hoses and a portable water tank on top of the compartments. The elliptical water tank carries 2000 gallons of water to the scene.
