

>>>> CUSTOM PUMPER

GSO 8767 | FIVEPOINTVILLE, PA

The Fivepointville Fire Company had a need for a pumper tanker with advanced performance requirements, that could fit into a specific size for their station and response district. The unit is built on the KME Predator chassis in an LFD configuration for comfortable seating for (8) firefighters. The Hale QMAX 1750 gpm pump provides heavy pumping power, with a 2500 gallon on board water supply. The body features full depth compartments on the driver side for storage of various tools and accessories.
