

CUSTOM PUMPER

GSO 8772 | WEST BRADFORD, PA

The West Bradford Fire Company chose the Severe Service cab/chassis for its durability. The apparatus features the big power that many more companies look for with a 500 hp big bore engine. The body is built from stainless steel to provide a durable body that will last the company many years of fire service. With a 750 gallon water tank the apparatus provides a better than average water supply with a very functional 176" wheelbase.
